### Secretary for Education's visit to our school

Mr Michael M Y Suen, the Secretary for Education paid our school a visit on 3rd October, 2008. His visit was to understand our school's New Senior Secondary curriculum planning. He met some F.3 students as they will be the first cohort under the new scheme and they told Mr. Suen what the new curriculum meant to them.

Our principal, Mr Ma Yuen Fat, introduced our school's preparation for the New Senior Secondary Curriculum (the initial phase). Mr Suen showed his appreciation with our school's deployment in Human Resources and our effort in improving our teaching effectiveness for the arrangement of the New Senior Secondary Curriculum. He expressed his concern about our students' school life. He observed our junior form students' participation in Liberal Studies, and how their critical analysis was being trained through group discussions. Mr Suen also observed how students performed in English Enhancement programmes. During his visit, he talked with our teachers, and listened to our sharing on teaching experiences, including the policy of the medium of instruction. Details of the visit have been uploaded to our school's website.
